Subject: Energy Medicine Tour to China

Ni Hao Flora & Ni Hao Yin & Ni Hao Jiang

Thank you! Thank you! Thank you!

The first Energy Medicine Tour to China was a huge success. Thank you to both of you and your associates for such a wonderful time in your Splendid Land of China.

Regent China Tours is **TOPS** in my book for service. The hotel rooms were excellent, the food was fabulous, the sites exquisite, and your tour guides were wonderful. Our group especially appreciated the warmth and graciousness from the guides as they worked to meet our every need and provide us the best experience possible.

Regent China Tours isn't in the tourist business, you're in the SERVICE business and I think that's even more valuable.

Flora, I'm especially grateful for your timely assistance and attention to detail in making this trip happen. Your patience in dealing with the group members as everyone tried to determine their best travel options is commendable.

I appreciate your willingness to customize the tour to meet my request with a focus on Energy Medicine. Providing private instruction with the Tai Chi master was wonderful. While visiting the China Academy of Traditional Chinese Medicine Museum was fascinating, I had hoped to visit a working TCM clinic. I appreciated Millie stepping up and going to great lengths to make arrangements for our visit to the Tongren TCM Hospital the next day. The opportunity to see the Doctors at work and to get treatments made the trip even more special.

I was especially pleased with our visit to Hangzhou and then Yin's suggestion of Wuzhen. I felt these two cities created a nice balance to the expansive energies of Beijing and Shanghai. I also appreciated Yin's choice of visiting the Ming Tomb in Deling. In fact, it was one of my most special memories. To be out in the beautiful country with the peace and quiet and to be the only people there outside of an occasional villager passing through on his way home. Having just arrived from a city of 14 million I would never have guessed you could go anywhere in the area and find this tranquility.

The opportunity to be with the local people of China by visiting the Jie Dai Zhan village, the Hutong Area, Temple of Heaven Park, Scenery Park, West Lake, and Wuzhen provided many wonderful memories for myself and the group. The Chinese people were so warm, inviting and open to us.

I was very pleased with the variety of the activities of the trip and the flexibility of the guides to adjust to meet the specific needs of the group. If anything, there were too many activities and not enough down time for resting. I also found this trip to be a tremendous learning opportunity for myself regarding group travel. I now have a much better idea for planning future trips.

Yin it was a pleasure meeting with you.

Many thanks,

Dr. Melanie
